# What Part Of The World We Talking About?

These statistics actually point to one of the **most forgotten**, desperately impoverished area of the world, in the Chisec region of Alta Verapaz, Guatemala.

A 36 year revolutionary war left the area decimated (1960–1996)

Countless villages were burned to the ground and untold hundreds of thousands of Mayans where tortured and murdered.

The people were so traumatized, they hid in the jungles and caves to survive. They have only recently begun to attempt to return to a "normal" existence.

Let's Help Strengthen These People In Their Homeland!

**Infant Mortality Rate is 154 per 1,000 Live Births.**

**82% of the children under age 5 suffer from chronic malnutrition.**

**90% of the population lives far below the International Poverty Rate.**

## Guatemalan Education Statistics - Northern Alta Verapaz

**Only 3 out of 10 Children** graduate from the **6<sup>th</sup> Grade.**

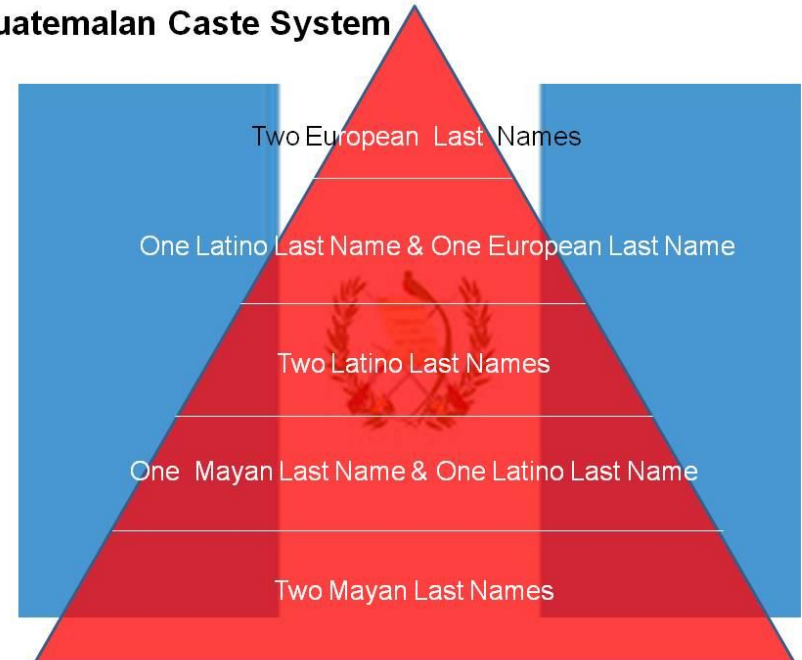

**Only 16% of 6<sup>th</sup> Grade Graduates**, end up finishing a **Secondary School Education...**

That is just **5.3% of the total population.**

Currently there are over **2,500,000 – 6<sup>th</sup> grade graduates** in the country of **Guatemala** who have no possible way to attend a **secondary school...** because of poverty and/or logistics and/or social pressure.
